

## Asher Rubin

Partner  
Baltimore

### Biography

As Global Head of our Life Sciences Industry Group, Asher Rubin has spent the past several years working with clients on some of the most exciting new technologies in the life sciences industry, such as CAR-T therapies, checkpoint inhibitors, co-stimulatory proteins, companion diagnostics, digital health technologies, ultra-orphan drugs, and gene therapies.

Asher developed his extensive industry knowledge over a period of more than 15 years, beginning with his role as in-house counsel and ultimately general counsel of a publicly traded, fully integrated pharmaceutical company.

Currently, Asher represents both private and publicly traded businesses, academic medical centers, inventors, and venture capital and private equity funds in a wide variety of transactions. He has comprehensive knowledge of the full spectrum of the life sciences sector: pharmaceuticals, biotechnology, medical devices, medical technology, digital health, and health services.

Asher has successfully negotiated and completed a range of life sciences transactions, with a particular focus on complex collaborative arrangements. Additionally, he regularly advises clients on venture capital financing, initial public offerings, follow-on
