

New regulation of Spanish Aircraft Registry

28 October 2015

Client Notes

A new Regulation (Royal Decree 384/2015, of 22 May 2015) has been passed governing the Spanish Aircraft Registration Mark Registry (Registro de Matrícula de Aeronaves) (the "Aircraft Registry").

The aim of this new Regulation consists of unifying in a sole registry all aircrafts, including those for commercial and non-commercial purposes, but excluding certain ones (among them, unmanned aerial vehicles – which are governed by a particular legislation).
