

Intellectual Property

We live and breathe IP. And we are ready to resolve your intellectual property issues wherever and however they arise.

Your ideas. Your innovations. Your brand. Our IP practice understands that these assets make your business unique, and we know how to protect them.

There's a reason why more than half of the world's top 100 brands (*Financial Times*, 2018) have chosen us to represent them. With 400 IP professionals worldwide, we combine a global outlook with local knowledge across the life cycle of IP assets — from development to commercialization, and licensing through to maturity. But it's not how many lawyers we have; it's the way we work together that our clients really value.

Many of our lawyers hold advanced degrees in science and engineering, helping us to fully appreciate the products and processes in traditional industries, as well as emerging ones.
