

## COVID-19 U.S. Government Legislation

On 27 March 2020, President Trump signed into law the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) to address the catastrophic impact of COVID-19 on the U.S. economy.

The CARES Act is a US\$2.2 trillion stimulus package, containing a range of stimulus measures, including direct assistance to families and workers, expanded unemployment insurance, funding for hospitals and health care providers, financial assistance to small businesses, tax relief, and loans and guarantees for other severely distressed sectors of the economy. Provisions in the Act cover a wide range of industry sectors.

The CARES Act is enormous both in dollars and complexity. Leveraging our in-depth industry and regulatory knowledge and understanding of the way government operates, we are helping our clients to understand how the current legislation impacts their business and how identify opportunities to shape new legislation and policy as it is developed.

The content below provides detail on how your business may be affected by the CARES Act. Stay on top of the latest Hill developments, news narratives, and media headlines with our daily COVID-19 D.C. Update.
