

Business Integrity

We know that responsible business, integrity, positive social and environmental impact and addressing climate change are core to our clients' success. Our Business Integrity Group (BiG) can work with you to help enhance brand integrity and top-line growth. Business with authentic purpose is proven to substantially increase financial performance: this requires a commitment which goes beyond "compliance".

The world in which we all operate has changed. To check if your business is up to date, [click here](#) for our Total Business Integrity Healthcheck – a 5-minute "app", which could fundamentally shift the way your business looks at itself and its stakeholders. You can also visit the [BiG Climate Hub](#) for more.

For a more in depth look, our Deep Dive Workshop can audit how your legal infrastructure shapes up to delivering value, business integrity and a positive environmental impact. We focus on ensuring your whole business and legal structures (and those of your investments and supply chain) underpin and compliment your brand, business plan and social/environmental purpose, driving governance and financial incentives aligned to that mission. Our cross border, multisector know-how can then help you find solutions to any issues uncovered.

Our BiG team works hand-in-hand with our large global team of lawyers who serve clients on the full spectrum of issues related to "ESG" – environmental, social, and governance issues. Driven by regulatory change, consumer and investor demand
